## Questions & Discussion

## USAG Grafenwoehr

# Back Up Slides

## USAG Grafenwoehr Issue 1

**Issue: 12<sup>th</sup> CM Co/307<sup>th</sup> BIDS Det Maintenance & Storage Requirements**

**Lead: DPW**

**Assist: PAIO, DOL**

Discussion: **End state facilities not completed until FY 09. This company is one of the largest in Europe with 248 pax and 262 pieces of equip (100 wheels, 10 tracks). Co Ops is ready - bldg 921. Maintenance and additional admin space will be spread between several facilities. Unit has CLS for BIDS and Fox vehicles with unique requirements.**

Options: **1) Reorganize unit prior to movement (reduce personnel & equipment)**  
**2) Move unit as is and assign sufficient facilities to operate until TEC design and end state facilities are complete**

**Recommendation:** Assign facilities to accommodate the unit until end state facilities and TEC redesign are completed.

## USAG Grafenwoehr Issue 2

### Issue: Organizational Storage for Non BCT (TEC) area units

#### Lead: DPW

Discussion: Current TEC redesign does not include the 561<sup>st</sup> Med Co, 71<sup>st</sup> Med Det and 255<sup>th</sup> Med Det. These units are not planned into the BCT (TEC) area and occupy existing space, under housed. We currently are providing training area space for storage for the 561<sup>st</sup> and storage space for the Med Dets will become part of a new Motor Pool project.

#### Assist: PAIO

Options: 1) Work with IMA-E & U'R GR2 to identify end state for these medical units and incorporate into BCT (TEC) area.

2) Determine adequate end state facilities in existing space and upgrade to standards. Provide a new storage and training facility.

Recommendation: Build a storage and training facility for these units in M

Determine end state facilities, renovate and reassign.

## USAG Grafenwoehr Issue 3

**Issue: Future Funding**

**Lead: IMA-E**

**Assist: DRM**

Discussion:

Options:

Recommendation: Get More!

## USAG Grafenwoehr Issue 4

**Issue: TEC Maintenance in Garrison**

**Lead: U'R G3 FMD Assist: U'R G4, 21<sup>st</sup> TSC, IMA-E, PAIO, DPW, DOL**

Discussion: **BCT area**

**maintenance facilities are designed for consolidated maintenance at the Bn level for AR, IN, FA & FSB units. TEC units coming in may still have Co level organizational (Field) maintenance.**

Options:

Recommendation: Wait for TEC Design

## USAG Grafenwoehr Issue 5

**Issue: SBCT FA Bn Set Renovation Completion**

**Lead: DPW**

**Assist: PAIO**

**Discussion: Completion of the FA Bn set facilities currently scheduled for completion in Nov 06. Unit arrives Jun-Aug 06 causing additional swing space requirements along with BUP.**

**Options: 1) 2CR work swing space internally to existing facilities  
2) Garrison identifies additional swing space for a Bn & 4 Co Opns**

**Recommendation: 2CR provides COA to temporarily work swing space for 3 months**

## USAG Grafenwoehr Issue 6

**Issue: Administrative Furniture**

**Lead: DOL**

**Assist: Arriving Units, IMA-E, U'R**

Discussion: **New construction, renovated and vacated facilities do not have required admin furniture for arriving units. (inclusive of new EB-G in Graf and Vilseck - motor pool benches/ work areas)**

Options: **1) Identify requirements and purchase new**  
**2) Arriving units bring all serviceable furniture**  
**3) Relocate from closing/realigning Garrisons**

Recommendation: Arriving units bring serviceable furniture; identify and relocate existing furniture from other Garrisons; purchase delta

## USAG Grafenwoehr Issue 7

**Issue: Vilseck Facilities Preparation for SBCT**

**Lead: DPW**

**Assist: IMA-E, U'R**

Discussion: **3/1 and nondiv units are vacating facilities in prep for SBCT. Vacated facilities require maintenance and paint & patch**

Options: **1) Occupy as is  
2) Obtain funding and properly prepare  
3) Do minimum with in house assists**

Recommendation: Obtain funding for proper facility preparation for the SBCT facilities

## USAG Grafenwoehr Issue 8

**Issue: DoDDS Portable Classrooms**

**Lead: IMA-E, U'R, DoDDS**

**Assist: DPW**

Discussion: The renovation of the Vilseck Middle/High School along with the arrival of the SBCT causes a shortage of classrooms. The arrival of units to Graf will also cause a shortage of classrooms. Both issues will be resolved Jan 08 with the completion of the Netzaberg Middle and Elementary schools

Options:

- 1) Explore the use of other Grafenwoehr locations for school rooms (Aachen/ Algiers/ Normandy)
- 2) Don't do the renovation
- 3) Conduct 2 shifts of school until Jan 08
- 4) Provide funding for portable classrooms until Jan 08

Recommendation: Provide funding for the purchase and installation of portable classrooms for both schools

## USAG Grafenwoehr Issue 9

**Issue: Closure of Wurzburg Hospital and migration of hospital support West**

**Lead: IMA-E, U'R, ERM**

**Assist: DPW**

Discussion: The closure of Wurzburg hospital and the recognition of the need for further medical expertise in the Local area will likely increase the needs for medical space (supply, office, housing). A preventive medicine team has already expressed interest and likely there will be others.

- Options:
- 1) GR-2 and ERM along with USAG Grafenwoehr conduct a series of meetings to determine end state for all medical needs in the USAG Grafenwoehr area.
  - 2) Upon completion of meeting, explore space for use and arrange for funding for the Delta.

Recommendation: ERM and GR-2 determine end state for all medical related organizations in a rapid fashion and relate same to the garrison.
